

ENTRY LEVEL – PROJECT ENGINEER

Date: December 19, 2016

Greene & Bradford, Inc. of Springfield is currently seeking a team-focused full-time entry-level Civil Engineer with a well-rounded engineering background that is interested in both the design and construction process.

This individual will join our professional staff in the **Springfield, Illinois** office and be exposed to the diversified types of services that the firm offers. We encourage you to apply if you wish to be a versatile member of the expanding G&B team.

Responsibilities

- Engineering Design tasks and Associated Drafting for General Civil, Roadway, Highway, Drainage, Site Development, Structural, Water, Sanitary Sewer, Storm Drain and Storm Water Pollution Prevention Plans
- Construction Observation and Documentation Assistance on Municipal, County, and IDOT Projects

Qualifications

- Bachelor of Science in Engineering from an accredited program (recent Graduate)
- Must have passed or is scheduled to sit for the Fundamentals of Engineering examination
- Previous internship or co-op experience in design and/or construction engineering preferred
- Eager to learn all aspects of the engineering process
- Strong written, verbal, computer, and organizational skills
- MicroStation and/or AutoCAD ability preferred

Send resumes to Greene & Bradford, Inc., 3501 Constitution Drive, Springfield, IL 62711 or kashifs@greeneandbradford.com
